

## **RATES**

This document presents the services offered by the CENIEH as an ICTS to researchers and companies, with their corresponding rates. Only the services defined are mentioned below: the Center also possesses capabilities for other methodologies to be commissioned and scientific-technical consultancy work.

#### **General conditions:**

- The procedure for requesting the services shall be through the User Office at the link: <a href="https://www.cenieh.es/infraestructura/acceso-y-oficina-de-usuario">https://www.cenieh.es/infraestructura/acceso-y-oficina-de-usuario</a>
- The commissioning of procedures, processes or methodologies shall be invoiced for on the basis of the cost of each of the techniques. The minimum charge for the different techniques which are charged per hour shall be equivalent to one hour, or the fraction indicated in the rate.
- Any tests which fail as a consequence of malfunctioning of the analytical instrumentation of the ICTS shall not be chargeable.
- When standards not available in the laboratories are needed, the cost of those standards will be added to the price of the service, subject to the prior agreement of the requester.
- Laboratories or services not envisaged in the following rates and services can be engaged and charged for on the basis of a prior agreement on price.
- The equipment denoted (LUC) may be used in the "qualified user" mode subject to inclusion of the user in the LUC (List of Qualified Users), and reception of the appropriate instructions or training.
- All the rates are for guidance only, and the prices may undergo modification, depending on the number of samples and their specific characteristics. Please request an estimate for each analysis and test and, in any case, for services not included in the tables below.

#### Application of Rates for the Competitive and On-Demand Access Modes

#### **Competitive Access Mode**

The applications made to laboratories with Competitive Access Mode by means of Competitive Calls, and following resolution, will be assigned as priority 1 or priority 2, and will be executed during the period established in the call, with **Rate A** being applied in all cases, whether they are for members of the CENIEH, or public or private bodies.

The applications made to laboratories with Competitive Access Mode but by means of On-Demand Access shall be charged at:

- Rate B for members of the CENIEH and for work arising from their research activity, whether as researchers on an internal project or as co-researchers on a project based at another research center or university.
- Rate C for public institutions such as universities, public research bodies (OPIs) or private bodies and companies.

#### On-Demand Access Mode

The applications made to laboratories with exclusive On-Demand Access mode shall be charged at Rate A, B or C, depending on the kind of requesting institution, determined in general as follows:

- Rate A: applicable to members of the CENIEH and for work arising from their research activity, whether as researchers on an internal project or as coresearchers on a project based at another research center or university
- Rate B: applicable to public institutions such as universities and public research bodies (OPIs) and other public bodies.
- Rate C: applicable to any class of work destined for and/or for the purposes of companies or private bodies.

	- Thin Sections
	Archaeometry Laboratory
	Digital Mapping and Multimedia Laboratory
	Experimental Archaeology Laboratory
	Bioenergy Laboratory
	Conservation and Restoration Laboratory

## - The Rates applicable are:

**Rate A**: these are prices charged to members of the CENIEH, for work related to their research activity, whether as researchers on an internal project or as co-researchers on a project based at another research center or university.

**Rate B**: this is applicable to public institutions such as universities and public research bodies (OPIs). It is understood that reciprocity will be applied, so that should the CENIEH need some service from an organization charged at the B rate, the same price considerations shall be applied to the Center. Rate B is obtained by multiplying rate A by a factor of 1.5.

Rate C: this shall be applied to any work whose result is destined for and/or serves the ends of companies and private bodies. Rate C is obtained by multiplying rate A by a factor of 2.

- Should the complete provision of the service requested require the CENIEH to subcontract part of the work, the cost of this subcontracting, with a surcharge of 10%, will be charged as an extra.

- These prices are subject to the current rates of VAT.

## **ARCHAEOMETRY LABORATORY**

FIELDWORK	Rate A	Rate B	Rate C
Taking samples (€/person-day)	250	375	500
X-RAY DIFFRACTION	Rate A	Rate B	Rate C

GAMMA AND BETA DOSIMETRY	Rate A	Rate B	Rate C
Sample preparation gamma dosimetry (€/sample)	18	27	36
Measurement gamma dosimetry (€/sample)	18	27	36
DATING OF QUARTZ	Rate A	Rate B	Rate C
No. of samples with separation of quartzes (€/sample)	180	270	360
Gamma spectrometry, irradiation and bleaching (€/sample)	69	130.5	138
ESR measurement, analysis of results and calculation of age (€/sample)	151	226.5	302
DATING OF TEETH	Rate A	Rate B	Rate C
No. of samples with separation of tissues (€/sample)	200	300	400
Gamma spectrometry, irradiation (€/sample)	50	75	100
ESR chemical preparation and measurement, analysis of results and calculation of age (€/sample)	350	525	700
GAMMA IRRADIATION	Rate A	Rate B	Rate C
Irradiation vials	0.2	0.3	0.4
Band I: Less than 30 sample-doses per KGy	1.5	2.25	3
Band II: More than 30 sample-doses per KGy	0.65	1	1.3
Preparation of vials by the user	0.2	0.3	0.4
Preparation of vials by the laboratory	1.2	1.8	2.4
SCIENTIFIC-TECHNICAL REPORT	Rate A	Rate B	Rate C
Scientific-Technical Report (€/day)	95	142.5	190
Scientific-Technical Report (€/hour)	45	67.5	90

If preparation of a thin section for tooth dating is necessary, for subsequent LA-ICP-MS and calculation of U/Th concentration, the charge for LA-HR-ICP-MS must be added (please see the rates for Uranium Series).

If sediment analysis to determine the U/Th/K ratio is necessary, the corresponding charge for elemental analysis must be added (please see the rates for Uranium Series).

### **GEOCHRONOLOGY: LUMINESCENCE**

LUMINISCECNE DATING (OSL/IRSL) (€/sample)	Rate A	Rate B	Rate C
Includes: sample preparation (quartz or feldspar extraction), OSL	372	558	744
measurement, dose rate determination, age estimation and brief report			
describing methodology and results.			
USE OF LUMINESCENCE READER* (€/sample)	Rate A	Rate B	Rate C
Use of luminescence reader by a qualified user	102	150	201
Training (€/hour)	15	22,5	30
RENTAL OF PORTABLE GAMMA SPECTROMETER	Rate A	Rate B	Rate C
Equipment rental (€/day)	50	75	100
FIELDWORK	Rate A	Rate B	Rate C
Sample collection (€/day). Price per person	250	375	500
SCIENTIFIC-TECHNICAL REPORT	Rate A	Rate B	Rate C
Scientific-Technical Report (€/day)	95	142.5	190
Scientific-Technical Report (€/hour)	45	67.5	90

<sup>\*</sup>In order to be accepted as a qualified user, previous experience in the use of Risø luminescence readers is essential and a training session (1-2 hours) must be undertaken. The user will be assigned reader time according to the characteristics of the samples to be measured. The activity will be monitored by the supervisor of the radioactive facility IRA 3015.

Partial work (quartz or feldspar extraction, OSL measurement, high resolution gamma spectrometry or beta counting) is available on request, subject to specific rates.

### **GEOCHRONOLOGY: URANIUM SERIES**

FIELDWORK	Rate A	Rate B	Rate C
Taking samples (€/person-day)	250	375	500
URANIUM SERIES DATING	Rate A	Rate B	Rate C
Physical evaluation of the sample/subsampling (€/sample)	36	48	72
Chemical separation (€/sample)	120	180	240
Measurement of MC-HR-ICP-MS (€/sample)	224	336	448

No. samples-Band I (1-10)-HRMS (€/sample)	30	45	60
No. samples-Band II (11-20)-HRMS (€/sample)	26	39	52
No. samples-Band III (21-30)-HRMS (€/sample)	20	30	40
No. samples-Band IV (31-40)-HRMS (€/sample)	16	24	32
No. samples-Band V (41-50)-HRMS (€/sample)	14	21	28
No. samples-Band VI (51-80)-HRMS (€/sample)	12	18	24
No. samples-Band VII (>80)-HRMS (€/sample)	11.5	17.25	23
SCIENTIFIC-TECHNICAL REPORT	Rate A	Rate B	Rate C
Scientific-Technical Report (€/day)	95	142.5	190
Scientific-Technical Report (€/hour)	45	67.5	90

If the samples are measured by LA-ICP-OES or LA-HR-ICP-MS, the same rates will apply, but digestion of the samples will not be included as they do not require this kind of preparation.

If preparation of a thin section for laser ablation is necessary, the charge for preparation of the section necessary from the sample must be added (Geology).

## Specific conditions:

- 1) The rates do not include loan for service outside the laboratory of the applications for subsequent data processing: only the programs necessary for discharging and basic evaluation of the data are included. Subsequent elaborations of the data shall be considered and charged for separately, as part of scientific-technical reports.
- 2) The rates include the loan of field portables for the desktop scanners only.

The requester shall be responsible for returning the equipment in the condition in which it was loaned. In cases of breakdown, breakage or theft of the equipment, the requester shall bear liability in accordance with the general conditions of the Center.

The equipment is partly insured, although in the event of any claim, the requester shall be liable for the policy excess.
